MEMORANDUM FOR: [REDACTED]

FROM : Chief, St/I

SUBJECT : Status of Unclassified Translation Allocation

1. Attached is a tabulation of the total number of unclassified translation requests charged to ORR during July 1959 by FID. The figures include only those translation requests which are processed by FID and as a consequence, many of the requests charged against ORR in July were submitted in May and June.

2. We plan to furnish you with this information on a monthly basis throughout the year. Further breakdown of the Division totals will be given on request.

3. One thousand pages have been set aside and are charged to D/H for JPRS coverage of Hungarian Agriculture, Forestry, and Fishing, a project which was dropped for lack of funds in another account.
